Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. ¹⁻⁹ **Claims ~~1-10~~ and 17-19**, drawn to a microwave waveguide, classified in class 333, subclass 239.
- II. ¹⁰ **Claims ~~11-16~~**, drawn to a method of drying a paper web, classified in class 219, subclass 691.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions Group II and Group I are related as **process and apparatus for its practice**. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus of *Group I* can be used for other processes, such as for cooking food or sintering ceramics or even for communication purposes as the waveguide does not require heating.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because of their recognized divergent subject matter and the search required for *Group I* is not required for *Group II* and vice versa, restriction for examination purposes as indicated is proper.

Art Unit: 3742

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
